**Office 365/Cloud Internet Consent**

School District No. 83 is always looking for ways to support learning in the classroom. As we move through the information age Internet-based tools are being developed and used to create and share learning and to build a lifelong digital portfolio. The District has identified two tools (Office365 and Gsuite) that will require a personal account to be created for your child using their first name, last name, birth year and the school that they are attending. Your consent to your child's use of Office365 and Gsuite is required by British Columbia's Freedom of Information and Protection of Privacy Act (FOIPPA). This permission is required once per school.

**myBluePrint Internet Consent**

As we move towards full integration of the Ministry of Education's New Curriculum, we are looking for tools to better support student learning. The myBluePrint platform has a version called All About Me designed for K-6 students and version for grade 7-12 students called Education Planner. Both versions have planning tools and an e-portfolio in a digital environment. The servers are located in Canada; however, we are still collecting permission from parents to use the program. Alternate activities will be supported if permission is not granted. This permission is required once per school.

**Walking Field Trips Permission**

During the school year, teachers may take students for excursions in and around our neighborhood. The teacher will provide supervision on these neighborhood trips, with the assistance of parent volunteers, as required. When longer trips involving travel outside our local area are planned, you will be informed in writing and will be asked to sign a separate permission slip for each trip. This permission is required once per school.
